Dall-E 2: cats learning C++ in the forest on '90's technology

MA

Write me a program that outputs "hello world" in C++

c

 Copy code

```
#include <iostream>

int main() {
    std::cout << "Hello, World!" << std::endl;
    return 0;
}
```

<https://cs103-proton.glitch.me/>

MA

What does `iostream` refer to in that program?

"`iostream`" is a standard C++ library that provides input/output functionality, including the `cout` object used in the "Hello, World!" program.

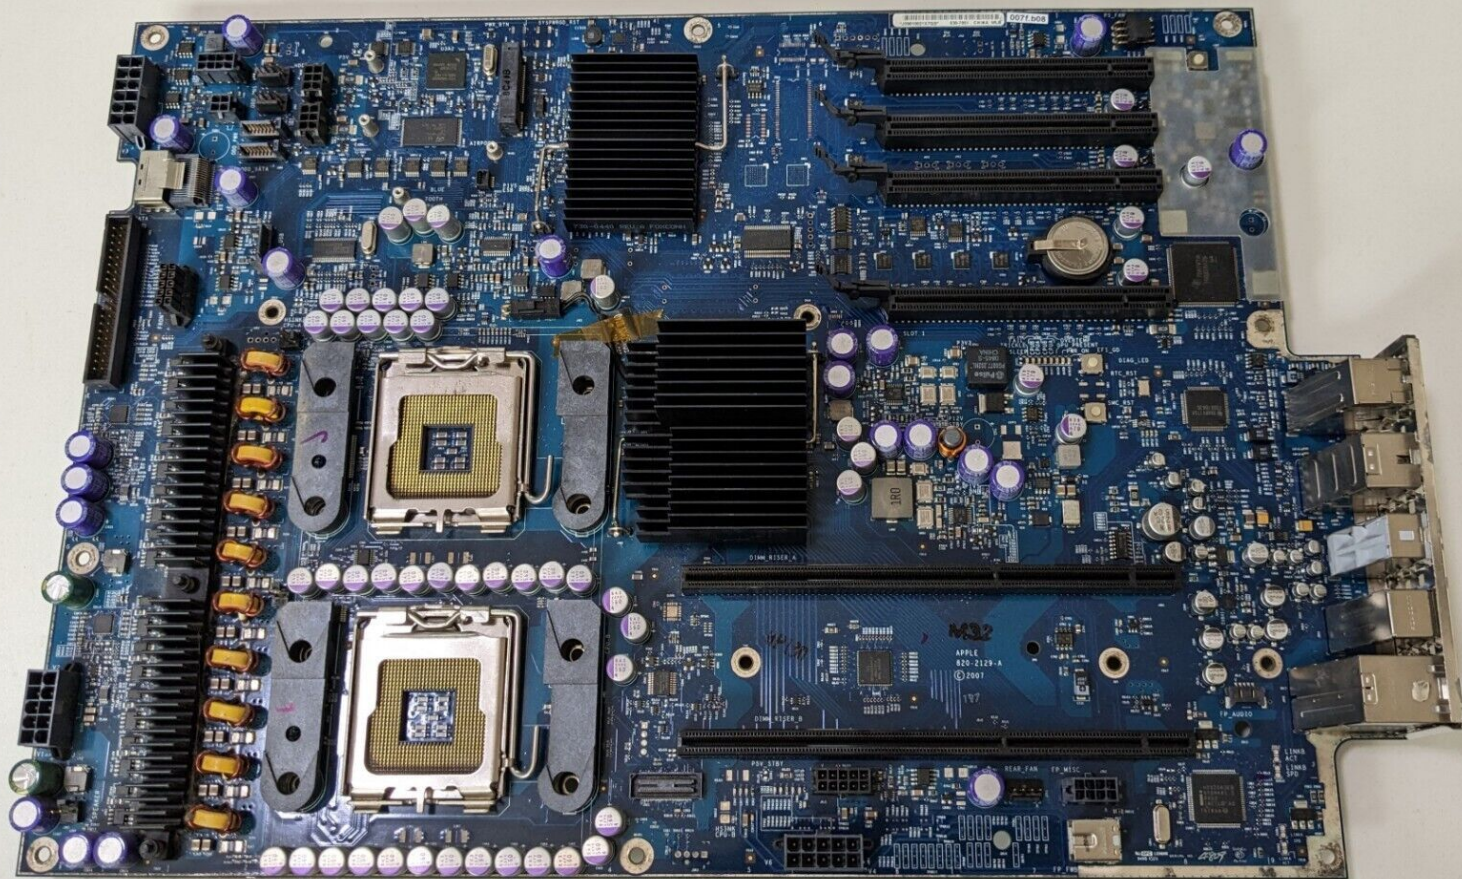

<https://cs103-proton.glitch.me/>

```
int score = 0;
```
