ANNALS OF NATURE

CAN WE TALK TO WHALES?

Researchers believe that artificial intelligence may allow us to speak to other species.

By Elizabeth Kolbert

Scientists involved:

- CUNY (Gruber, biologist)
- MIT
- Oxford
- Harvard

“I think it’s something that people get really excited about: Can we go from science fiction to science?” Rus told me. “I mean, can we talk to whales?”

New Yorker, Sept. 4, 2023 ([link](#))

for loops!

```
int i;  
for (i = 0; i < max; i++) {  
    // loop in here  
}
```

Special Pythagorean triplet

Problem 9

A Pythagorean triplet is a set of three natural numbers, $a < b < c$, for which,

$$a^2 + b^2 = c^2$$

For example, $3^2 + 4^2 = 9 + 16 = 25 = 5^2$.

There exists exactly one Pythagorean triplet for which $a + b + c = 1000$.
Find the product abc .

euler #9 answer: 31875000

"brute force"

using loops + computation power
